*Black Light Reactive*

## FLR

### Fluorescent Sublimation Ink

Bright Vivid Colors  
Reliable Jetting  
Consistent Color  
Long Lasting  
Expand Your Gamut  
Stable

Our New Fluorescent inks are designed for use on most piezo printers using water-based inks such as Epson, Mimaki, Mutoh and Roland. This ink series is designed specifically to support the sublimation transfer process (Westar recommends Coldenhove paper). Designed for printing on polyester based materials this new ink series is Black Light reactive and has the potential to expand the kind of sublimation products you offer. If you're looking for black light reflective, long lasting and bright colors then our new Fluorescent sublimation ink is just what you need.

PRODUCT	SIZE	PRICE
Sublimation Ink Magenta, Yellow	1 kilo	\$259
